

# How To Draw Dexter

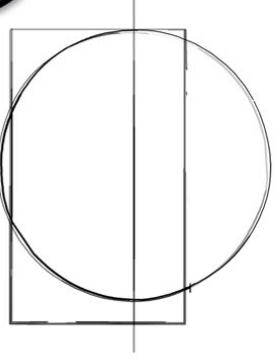

**1**

Start by drawing a circle, and then a rectangle over the top of it.

**2**

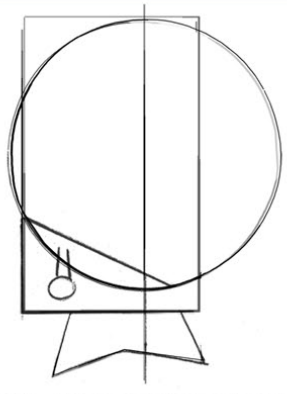

Add a line down the middle of the circle. The circle, rectangle and line are called guides. Now you are ready to start drawing Dexter.

**3**

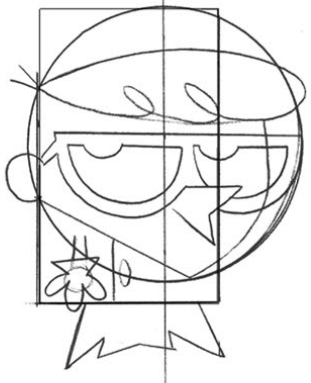

Using your guides, draw a diagonal line to make Dexter's chin, then make two small lines and a circle to make his arm, and then his feet.

**4**

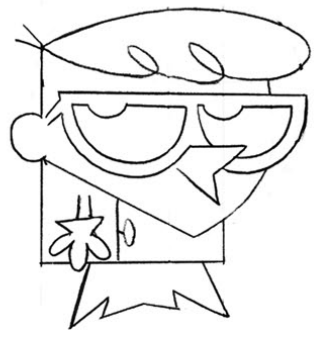

Add Dexter's ear, nose, the side of his face and hair, including two curls!

**5**

Use the edges of the rectangle as a guide to mark out Dexter's lab coat. Then add his glasses, glove and button.

**6**

Draw over Dexter's outline with a thick black marker, rub out the guides and any sketchy lines. Colour him in and hey Presto! It's Dexter!

**You will need:** A pencil, a piece of plain paper, an eraser, black marker pen and colouring pens. You should remember to draw lightly to begin with so you can rub out your rough lines easily.
