

How To Draw Scooby-Doo

1

Draw an oval with an egg shape overlapping it and a small egg above. Join the shapes together with a curved line.

2

Concentrating on the front of his body, draw two front legs and a line for his tummy.

You will need:

A pencil, a piece of plain paper, an eraser, black marker pen and colouring pens. You should remember to draw lightly to begin with so you can rub out your rough lines easily.

3

Next add in Scooby's back legs and tail.

4

Now concentrate on Scooby's head starting with the small egg shape, draw a bump for Scooby's nose and head, two circles for his eyes, two ears and his neck.

5

Now using the rough shape of his head and neck add detail to his ears, eyes, eyebrows, nose, mouth and add a collar.

6

Finally add Scooby's feet, ankles and his spots! Draw over his outline leaving out any sketchy lines and colour him in!
